- **Design & Media:** Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, CapCut

Hard skills: Responsive Web Development, API Integration, Web Performance Optimization, Cross-Browser Compatibility, Debugging, Basic PHP, MongoDB, UI Implementation, Component-Based Architecture, Code Reusability.

Soft skills: Problem-Solving, Time Management, Team Collaboration, Adaptability, Communication and Creative Thinking.

Experience

Tech Park info Solutions, Chennai, India

May 2023 - Present

Senior Frontend Developer & Graphic Designer

- Developed and launched **60+** responsive, performance-optimized websites using HTML, CSS, JavaScript, React JS, Bootstrap, and GSAP for modern animations across industries such as Fintech, Edutech, E-commerce, B2B, SaaS, Healthcare, Sports, and Data Science.
- **Collaborated closely with clients and internal teams, managing end-to-end project lifecycles** and maintaining strong client communication to ensure design accuracy and timely delivery.

- Integrated backend functionality using basic PHP, MongoDB, and SQL to support dynamic content and user interactions in web applications.
- Designed UI for both web and mobile platforms, creating wireframes, mockups, and final visual designs using tools such as Figma, Adobe Photoshop and Adobe Illustrator.
- Created and managed marketing materials including social media posters, ads campaign creatives, and print assets such as brochures, logos, visiting cards, and letterheads to support brand identity and marketing initiatives.
- Edited promotional and explainer videos using Adobe Premiere Pro and CapCut to enhance customer engagement and improve visual communication.
- Currently learning Flutter for basic mobile app development, applying foundational knowledge to develop cross-platform user interfaces.
- Ensured all designs and code followed best practices in accessibility, cross-browser compatibility, and mobile-first development.

360 Degree info Solutions, Chennai, India
Frontend Developer

Aug 2022 - May 2023

- Developed and maintained over **20+** responsive and user-friendly websites using HTML, CSS, JavaScript and Bootstrap, ensuring optimal performance across desktop and mobile devices.
- Translated client requirements and UI designs into functional front-end code, collaborating with design and backend teams to deliver seamless, cross-browser compatible web experiences.
- Applied best practices in frontend development, including clean code structure, mobile-first design, and performance optimization, resulting in improved user engagement and faster site load times.
